Description

A unique fusion of European and Mexican style, with a contemporary twist, this newly-renovated gem is truly one-of-a-kind. Two levels, accessed by a private elevator or stairway, provide an incredible view of the broad, sweeping ocean and the mountainous landscape beyond. The open, airy architecture invites, not only the sun, but also the refreshing ocean breeze of the afternoon.

Hand-painted murals by European artists, along with paintings and sculptures created by local artisans, set the modern tone of this gracious house. Exceptionally finished in antique furnishings, the flavor is sophisticated and, at the same time, relaxed.

Traditional beams of timber and hand-crafted floors exude centuries of craft and style. Private terraces offer solitude. Around you, the jungle rises with its sights, colors and sounds, water trickling in the distance.
